

Load Support Product Catalog

Corporate Fleet Program

Designed to keep your fleet safe and profitable with optimal comfort and performance.

Your Load Support Solution

Safety

Get Stability

Level your load, improve braking, and enhance steering control. Air Lift air spring kits help reduce sway and squat, keeping your drivers safe and your fleet secure mile after mile.

Cost

Get Efficiency

Prevent costly wear and tear with better balance and reduced strain on tires, shocks, and brakes. Air Lift load support systems extend vehicle life and lower total cost of ownership across your fleet.

Comfort

Get Confidence

A level ride means a smoother, more controlled drive. Air Lift products deliver consistent handling and comfort under any load, helping your drivers stay focused, productive, and fatigue-free.

Load-leveling with a smooth ride

Many of today's most popular light-to-medium duty trucks and vans are built for a more comfortable, car-like ride. That's fine when the vehicle is lightly loaded, but add a heavy load and the vehicle squats, compromising ride quality and safety. **Air Lift® RideControl™** air spring kits bring the vehicle back to level, restoring safety and comfort.

The original

Air Lift 1000™ adjustable air springs are engineered for open coil spring suspensions, front or rear. Air Lift's most versatile air spring provides load-leveling for cars, SUVs, minivans and motorhomes. Air Lift 1000 HD provides even more load-leveling capacity, exclusively for RAM trucks. Whether our original "red bag" or the 1000 HD, Air Lift 1000 Series and Combo Kits provide uncompromising safety and comfort, loaded or unloaded.

Air Lift 1000™

Load-leveling capacity: **1K** Up to 1,000 lbs.*

Solution for: SUVs, CUVs, cars, minivans, motorhomes/RVs and trucks with open coils

Warranty: Lifetime** | 60-day satisfaction guarantee

Air Lift 1000 Features	
	Air Lift 1000 is air adjustable from 5 to 35 PSI (90 PSI for motorhomes)
	Tough molded polyurethane construction
	Installation requires no modifications to the vehicle
	Compatible with most Air Lift on-board compressor systems including the WirelessAir system and WirelessOne system

Air Lift 1000™
60000 | 80000 Series
**Adjustable Load Support
for Coil Sprung Vehicles**

Air Lift 1000 HD™

Analog In-Cab Control

Whether hauling a heavy load or riding light, **LoadController™** on-board air compressor systems provide in-cab control of air springs at an economical price point. LoadController is available in 3 configurations: Compact Single-Path (P/N 25854), Compact Dual-Path (P/N 25856) and Panel Single-Path (P/N 25592).

Compact models can be mounted in-dash or with the included mounting pod (dual-path gauge pictured left), while the panel model comes pre-mounted for quick under-dash installation.

Towtal View™

HD Camera with Versatile Mounts

Solution for: Backup assist, load monitoring and security

Warranty: 2-year limited*

Control Towtal View camera with a compatible smartphone and the free app.
App compatible with larger devices such as iPad and Android tablets

Towtal View™
HD Camera with Versatile Mounts
P/N 25300

HD Camera Features

	Wireless HD camera with over 100 feet of reliable range via a strong and secure Wi-Fi connection
	The FREE mobile app for iOS and Android allows for access to live color camera feed, record videos, capture photos, and even add or remove backup-assist lines
	Infrared LED lights for night vision that also maintains color viewing, rather than traditional black & white night vision
	Multi-coated lens for clarity by reducing glare, resisting fingerprints and scratches and improving color accuracy
	80° vertical and 110° horizontal field of view (FOV)
	Camera has a waterproof rating of IP68 and portable suction cup mount is IP67 waterproof rated
	From the HD camera and mounts to the power harness and wire taps, everything needed is in the box

*Official warranty details are listed at www.airliftcompany.com/warranty and are subject to change.

A New Perspective On Towing

Backing up trailers can be difficult, especially if it's dark or you're unfamiliar with where you're going. **Towtal View HD Camera** provides clear visibility, easy hookups, and the ability to see exactly where you're going, even when you're alone.

Camera and permanent mount

Camera and portable suction cup mount

Versatile Mount Features

	Quick-connect mounts allow for easy, no-tool swapping between the hardwired and battery pack mounts
	Each mount provides multiple viewing angles (-65° down, +45° up) along with an 80-degree vertical and 110-degree horizontal field of view
	Included rechargeable lithium-ion battery pack built into suction cup mount with 5+ hour battery

Portable suction cup power pack mount

Features quick-connect mount and 5+ hour lithium-ion battery

Quick-connect permanent mount

Includes wiring harness and all hardware for easy connection to trailer lights

Whether it's wiring the permanent mount into the vehicle's trailer lights or using the portable suction cup power pack with over 5 hours of battery life, Towtal View camera can be mounted anywhere on your tow vehicle or trailer, inside or out.

Towtal View™
LaneGuard™

P/N 25341

Single Sensor Solution for Blindspot Detection

LaneGuard offers Blind Spot Detection (BSD) and Lane Change Assist (LCA). These features allow you to tow with peace of mind, knowing your blind spots are covered and lane changes are safer. The system includes LED light strips mounted on the front of the trailer for clear feedback.

Towtal View™
LaneGuard Pro™

P/N 25342

Dual Sensor Solution for Blindspot Detection

Blind Spot Detection (BSD), Lane Change Assist (LCA) and also Rear Cross Traffic Alert (RCTA) allow you to tow with peace of mind, knowing your vehicle's surroundings are continuously monitored, simplifying every lane change and reverse maneuver.

- LaneGuard Features**
- + **Enhanced Safety:** Equip your vehicle with **Blind Spot Detection** (BSD) and **Lane Change Assist** (LCA) to reduce the risk of accidents caused by limited visibility.
 - + **Stress-Free Maneuvering:** Simplify lane changes and merging with proactive alerts that let you know when it's safe to move, making towing less stressful.
 - + **DIY or Installer Assistance:** LaneGuard installation can be completed by an experienced DIYer or an authorized installer. It integrates seamlessly with your vehicle, getting you on the road quickly and safely.

- LaneGuard Pro Features**
- + **Comprehensive Coverage:** With dual radars, LaneGuard Pro offers not only **Blind Spot Detection** (BSD) and **Lane Change Assist** (LCA) but also **Rear Cross Traffic Alert** (RCTA), providing all-around protection.
 - + **Advanced Alert System:** Receive timely and accurate alerts about obstacles behind your trailer when reversing, crucial for preventing collisions in crowded or tight spaces.
 - + **Superior Visibility:** The dual radar setup extends the range of detection, giving you a broader view of your surroundings and greater control over your towing experience.

Air Lift Digital Portable Compressor

P/N 16188

Air Lift's new **Digital Portable Compressor** is a reliable air support solution featuring a digital gauge for quick, accurate readouts and the ability to set preset pressures with automatic shutoff. The compressor can be powered via the vehicle's 7-way trailer plug or connected to the vehicle's battery, eliminating the need for complicated wiring or low power limitations. Ideal for those needing on-the-go air compressor support to inflate or deflate air springs, vehicle tires, bike tires, toys, and much more.

COMPRESSOR FEATURES:

- + Portable compressor with 120 PSI digital pressure gauge
- + Pressure presets with automatic shutoff at the desired pressure
- + Deflate button on the air hose
- + 7-way power adapter
- + Battery clamp power adapter
- + LED work light / power indicator
- + Deluxe carry bag
- + 3 pc. inflation tips kit
- + Presta valve adaptor
- + 6' power cord with 16' air hose

7-WAY ADAPTER & BATTERY CLAMP ADAPTER FEATURES:

- + 7-way power adapter connects to vehicle's trailer 7-way plug to power a compressor
- + Battery clamp power adapter connects to vehicle's battery to power a compressor
- + SAE connector on power cord
- + Upgrade or convert your existing compressor to battery clamp connections

Universal Air Spring Cradle

For Lifted Trucks

Solution for: Most brands of air springs*
Warranty: Lifetime** | 60-day satisfaction guarantee

Universal Air Spring Cradle
P/N 52500
Allows for Full Extension of Vehicle Suspension

- Mounting hardware included for all LoadLifter 5000 integrations.

Universal Air Spring Cradle Features	
	Allows for full extension of the vehicle's suspension
	Perfect solution for lifted vehicles
	Recessed mounting holes for bolt-up or bolt-down installation
	Made from durable and lightweight engineered resin
	Drain holes to help clear water and debris
	Mounting hardware included for all LoadLifter 5000 integrations
	Fits all Air lift LoadLifter 5000™ series air spring kits as well as many other brands*

* For bellows-style air springs only. Does not fit LoadLifter 7500 XL Ultimate or sleeve-style springs such as RideControl™.
**Official warranty details are listed at www.airliftcompany.com/warranty and are subject to change.

Designed with lifted trucks in mind

Air Spring Cradles allow the air spring to become detached from the lower bracket, allowing full extension of the vehicle's suspension for a better, safer, smoother ride.
Universal Air Spring Spacers allow for the addition of an air spring kit to an already lifted truck.

Universal Air Spring Spacer

For Lifted Trucks

Solution for: Most brands of air springs*
Warranty: Lifetime** | 60-day satisfaction guarantee

Universal Air Spring Spacer Features	
	Made with high-grade 1/4" steel
	Unique spinal design makes it easy to attach air springs
	All hardware included in the box for connecting to lower bracket and air spring
	Works with most brands of bellows-style air springs (including Air Lift's LoadLifter 7500 XL Ultimate)
